Bukit View Secondary

2014 - 2018

## ABOUT ME

*Self-motivated professional  
specializing in software  
development and engineering.*

Experienced in  
Software Development,  
Software Engineering.

## EXPERIENCE

### SEMBCORP

SembWaste, Bukit Merah, March 2021- August 2021

I was part of the Business Development Team where I had a chance to design, code, and develop a recycling app for them. I have engaged customers and users through outreach events. I have come up with marketing materials and UI/UX Designs of apps and websites.

I was also a part of the Operations & Maintenance Team where I got to learn about supply chain management and how to operations of SembWaste work

### IBM

IBM, IBM Place, Feb 2022- Present

Working on an IBM Healthcare Project at Tan Tock Seng Hospital with clients from IHiS (Integrated Health Information Systems), as a junior software engineer.

--> Projects I'm working on & leading a team of 10 new employees:

1) NGEMR - Production & deployment of software to support Next Gen Medical Records.

2) ECM - Electronic Collection Module - Deploy And Configure Machines to be ready for NGMR.

--> Additional Ad-Hoc duties I'm doing:

1) IT Support - Solve Incidents that are escalated Hospital wide (I'm mainly in charge of Wards and Clinic incidents).

## ACHIEVEMENTS

### Co-Curricular Activities Positions:

- Head of Events for NYP The Communicators (Feb 2021 – Feb 2022)
